We have audited the accompanying financial statements of the Mendocino Land Trust, Inc. (Organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Summary of Organization

Mendocino Land Trust is a California non-profit public benefit corporation, as described in Section 501(c) (3) of the Internal Revenue Code and is exempt from federal and state income taxes. The Land Trust was formed in 1976 under the laws of the State of California for the purpose of protecting the scenic, natural, agricultural and open spaces of the Mendocino Coast for the benefit of the community, including future generations, by developing long-term land protection strategies, by promoting private and public funding for land conservation, by acquiring land and conservation easements, by practicing stewardship, including the restoration of conservation properties, and by developing both a sense of place and a land ethic through activities, education and outreach.

In February 2017 Mendocino Land Trust became Accredited and received national recognition from the Land Trust Alliance joining a network of only 453 accredited land trusts across the nation that have demonstrated their commitment to professional excellence and to maintaining the public's trust in their work.

Mendocino Land Trust has an office in Fort Bragg, California and its operations are funded by support from donors, contracts from various state and federal agencies, and from fee for service work.

Basis of Accounting

The financial statements of Mendocino Land Trust have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) established by the Financial Accounting Standards Board (FASB). The Land Trust reports information regarding its financial position and activities based on the existence or absence of donor-imposed restrictions in the following net asset categories.

Net Assets Without Donor Restrictions

Net assets without donor restrictions represent available resources other than donor-restricted contributions. These funds may be expended at the discretion of the Board of Directors. The Board periodically designates a portion of unrestricted net assets for use on specific projects or programs. Current board designations are for land and trail stewardship and operating reserves.

Net Assets With Donor Restrictions – Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,
Continued

Cash and Cash Equivalents

Mendocino Land Trust considers cash balances and unrestricted highly liquid investments with original or remaining maturities of three months or less at the time of purchase to be cash equivalents.

Accounts Receivable

Accounts receivable are recorded at net realizable value consisting of the carrying amount less an allowance for uncollectible accounts, if amounts are deemed uncollectible. The allowance is established based on factors such as historical experience, credit quality and the age of the account balances. At June 30, 2021 all amounts were deemed collectible with no allowance required.

Investments

Investments are stated at fair value. Realized and unrealized gains and losses are reflected in the statement of activities.

Furniture, Equipment, and Leasehold Improvements

Mendocino Land Trust has adopted a capitalization policy requiring all assets acquired whether purchased or received by donation, with a cost or value of more than \$5,000 to be capitalized. Those below that threshold are expenses in the period received.

Purchased fixed assets are stated at cost. Donated capital assets are recorded as contributions at their estimated fair value. Depreciation and amortization are provided using the straight-line method over the estimated useful lives of the related assets, which range from five to seven years, or over the lesser of the term of the lease or the estimated useful life of the asset for assets under capital lease.

Leasehold improvements are amortized over the lesser of the term of the lease or the estimated useful life of the improvements.

Upon sale or retirement of depreciable assets, the related cost and accumulated depreciation or amortization are removed from the accounts. Any gain or loss on the sale or retirement is recognized in current operations.

Conservation Lands and Easements

Mendocino Land Trust records land it acquires at cost or records the land at fair value on the date of acquisition if all or part of the land is received as a donation. Values are recorded based on the following:

- Independent professional appraisals are performed for the donor or the organization; or
- Value is adopted by the acquiring public agency; or
- Where neither of the preceding sources is available, the organization may use the full cash value as established by the local tax assessor.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,
Continued

Conservation Lands and Easements, continued

Conservation easements acquired by or donated to the Mendocino Land Trust represent numerous restrictions over the use and development of land not owned by the organization. These easements provide that the land will be maintained unimpaired in its current natural, agricultural, scenic or recreational state. Since the benefits of such easements accrue to the public upon acquisition, and the easements themselves have no marketable value, easements acquired by the Mendocino Land Trust are reflected as zero value.

Donated Furniture, Equipment and Property

Donations of furniture and equipment are recorded as support at their estimated fair value at the date of receipt or unconditional promise to give. Donated property is reported at the appraised value of the property when received. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long the donated assets must be maintained, Mendocino Land Trust reports expirations of donor restrictions when the donated or acquired assets are placed in service. Mendocino Land Trust reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Contributions

Contributions are recorded as revenues at fair value at the date of receipt or unconditional promise to give, and as assets or decreases of liabilities or expenses, depending on the form of the benefit received.

Donor-restricted contributions, whose restrictions are met in the same reporting period, are reported as unrestricted contributions.

Contributed Services

Contributed services are recognized in the financial statements if they enhance nonfinancial assets or require specialized skills, are provided by individuals possessing those skills and would typically need to be purchased, if not provided by donation. General volunteers do not meet these recognition criteria, but have donated significant amounts of time and performed a variety of tasks that assist Mendocino Land Trust in meeting their objectives.

Unearned revenue

The balance of the unearned revenue account represents payments that the Mendocino Land Trust received that were not fully expensed by the end of the current fiscal year. The balance of the unearned revenue account at the balance sheet date is \$132,769.

Advertising

Costs incurred for advertising are charged to expenses as incurred. Total advertising costs were \$500 for the year ended June 30, 2021.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES,
Continued

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statement of functional expenses. Accordingly, certain administrative costs have been allocated among the programs and supporting services benefited based on personnel, space, and other factors.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the relevant period. Actual results may differ from those estimates.

Significant accounting estimates reflected in the Mendocino Land Trust's financial statements include the valuation of investments, the valuation of donated land holdings and conservation easements, and functional allocation of expenses.

Income Taxes

Mendocino Land Trust is a not-for-profit organization that is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code and related California code sections.

Mendocino Land Trust follows the guidance of FASB ASC 740 – Accounting for Uncertainty in Income Taxes. As of June 30, 2021, management evaluated the Land Trust's tax positions and concluded that Mendocino Land Trust maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements.

1. LIQUIDITY AND AVAILABILITY

Total capital assets	<u>\$ 24,709</u>	<u>\$ (7,250)</u>	<u>\$ -</u>	<u>\$ 17,459</u>

Depreciation expense charged to operations for the year ended June 30, 2021, is \$7,250.

3. FAIR MARKET VALUE AND INVESTMENTS

FASB ASC 820 established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that Mendocino Land Trust has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. As a practical expedient, certain investments are measured at fair value on the basis of net asset value. The fair value of these investments is not included in the fair value hierarchy.

4. FAIR MARKET VALUE AND INVESTMENTS, Continued

Mendocino Land Trust uses appropriate valuation techniques based on the available inputs to measure the fair value of their investments. When available, Mendocino Land Trust measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investments.

The following schedule reports the types of investments that Mendocino Land Trust owns as well as the investment's cost and fair market value at June 30, 2021:

Description	Cost Basis	Fair Market Value Using		
		Level 1	Level 2	Level 3
Money market funds	\$695,378	\$1,061,394	-	-
Mutual funds	1,521,755	2,049,906	-	-

5. CONSERVATION LANDS AND EASEMENTS

Mendocino Land Trust has several land holdings that require the organization to adhere to use limits and maintenance requirements. If these requirements are not met by the Mendocino Land Trust, the properties will revert either to the heirs of the donor or other land conservancy organizations. Also, certain conservation lands have been purchased using governmental funds. Such funds restrict the sale and disposition of the property under various agreements.

In September 2020, FASB issued ASU 2020-07 - Not-for-Profit Entities (NFP) (Topic 958), Presentation and Disclosures by NFP for Contributed Nonfinancial Assets. The amendments in this Update apply to NFPs that receive contributed nonfinancial assets. Contribution revenue may be presented in the financial statements using different terms (for example, gifts, donations, grants, gifts-in-kind, donated services, or other terms). The amendments address presentation and disclosure of contributed nonfinancial assets. The main provisions in this amendment require that a NFP present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash and other financial assets. Also, a Not-for-Profit disclose (a) A disaggregation of the amount of contributed nonfinancial assets recognized within the statement of activities by category that depicts the type of contributed nonfinancial assets. The impact of adopting this guidance is reflected in the financial statements and did not have a significant impact on the financial statement disclosures.

FASB Accounting Standards Codification Topic 606, Revenue from Contracts with Customers, as amended, supersedes or replaces nearly all GAAP revenue recognition guidance. These standards establish a new contract and control-based revenue recognition model, changes the basis for deciding when revenue is recognized over time or at a point in time, and expands disclosures about revenue. Any financial impact to the Land Trust cannot be reasonably estimated at this time. Therefore, no subsequent events were identified that required adjustment to or additional disclosure within the financial statement for the year ended June 30, 2021.
